

# Stainless Steel Convenient Bended Paper Straw Tandem Packer Automatically Making Bag

## Specifications :

Price	Contact us
Brand Name	JHD
Place of Origin	China
Min.Order Quantity	1
Payment Terms	T/T,L/C,D/P
Supply Ability	100
Delivery Detail	20days--35days
Packaging Details	Wooden case or wooden pellets depended on clients' require

## Detail Introduction :

### Summary

JHD devoted ourselves to mechanical industry for many years?our company owns world class equipment and advanced quality management system. JHD has independently developed and produced Bended paper straw Tandem Packer and exported our products to more than 30 countries,we are expecting become your long-term partner in China, the following is about the Bended paper straw Tandem Packer?hope to help you better understand it.

### 1, Product Introduction of Bended paper straw Tandem Packer

The Bended paper straw Tandem Packer is a supporting equipment for the beverage straw manufacturing unit, Bended paper straw Tandem Packer can process the produced straws into a magical universal flexible tube after being processed by a flexible tube forming machine. It is automatically bent into a U-shaped straw, and the U-shaped straw is individually packaged into a crawler-type continuous strip with a BOPP film. This machine also has the functions of automatic cutting oblique edge, trimming edge, punching, and tearing, counting (or winding finished product), sucking waste, collecting margin, etc., and at the same time it also has a maintenance platform to make the finished product 100% satisfy the beverage (dairy products)) Paper packaging line is used. The machine is composed of a hopper, a rack, a feeding device, bending conveying device, a cutting oblique device, heat sealing device, trimming device, cutting, and tearing device, maintenance platform, counting device (or a finished winding device), waste suction device, the disinfection device, and the electric control box, it is an ideal U-shaped straw continuous packing machine with complete functions, high automation, and reliable operation

## 2, Product Parameter of Straw Tandem Film Packer (Specification)

Length after bending?	125?85 (The machine is equipped with three vacuum hub slots, the slot length is 128, 105, 90mm for users to choose)
Specifications for packed paper straw?	Outer diameter?Custom specifications
Suction end length?	?62mm(including curved arc)
Angle of bevel?	45°or 30°
Packing specification?	tube spacing?22mm
Maximum productivity?	700 pcs/min
Packing material?	BOPP heat sealing film (width reserved for cutting margin of about 40mm)
Host power?	2.2kW
Heating power?	1.2kW
Counting motor?	0.12kW
Total power?	4KW
Power source?	380V?50Hz
Gas source?	0.7MPa
Speed range?	?1450rpm(stepless)
Dimensions?	3500x1800x1700mm
Weight?	1100KG

## 3, Product Feature and Application of Straw Tandem Film Packer

- 1?Compact structure, easy operation, high degree of automation and high production efficiency?
- 2?The heat sealing device is equipped with vacuum adsorption, and the film releasing device is provided with a constant tension mechanism, and the packaging quality is excellent?
- 3?Adopting the power supply heating of the bus ring, the temperature rises quickly, the temperature control precision is high, the package size is stable and consistent, and the qualification rate is high?
- 4?**Straw Tandem Film Packer** has a variety of functions: bending, cutting oblique, single package, cutting margin, punching, suction, recycling, counting (or winding), batch alarm, maintenance?

5? **Straw Tandem Film Packer** adopts frequency conversion speed regulation, which has the functions of power saving, stable and reliable operation, uniform speed change and automatic shutdown of overload?

6? With automatic tube missing and membrane missing detection functions?

7? With online operation of UV ozone disinfection?

#### 4, Why choose JHD ?

JHD PACKAGING INDUSTRIES (SHANGHAI) CO., LTD is an innovative manufacturer of paper straw solutions based in Jiangsu Province, China. With a total investment of 8 million USD in a 5000 square meter factory and quickly became a major exporter of qualified and reliable paper straws manufacturing equipment.

Firstly, JHD is not only have the advanced production equipment?but also have professional technical personal and a large group of skilled worker, so we will strictly control the product quality .

the second point is about our service?technical support, on-site service, spare part, and specialized diagnostic tools are available for customer's production systems. we can also provide value-added service?according to customer's requirement, including: consulting and expertise sharing, trouble shooting, on-site supporting & training. We are the experts in this industry, we have the strength to become your partner in China.
